At Ultrasun, we believe that your well-being is about more than feeling good and looking great.

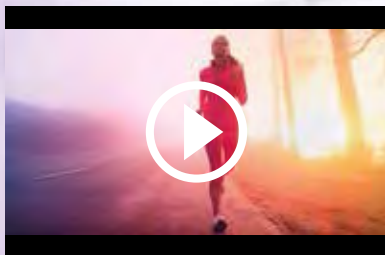

We believe that responsible use of light, and the energy it releases, should form a regular part of our lifestyle. Just like exercising and eating a balanced diet.

Our aim is to be your partner of choice by recreating the energy and vitality of a sunny day in a safe and controlled way.

So you can enjoy a moment when you can close your eyes, recharge yourself and look forward to what life has in store for you.

RECHARGE YOURSELF

When you lead a busy life it's easy for your energy levels to fall out of balance.

That's why it is vital that we take a few moments to relax, recharge yourself and enjoy a little 'me time'. The natural way to do that is by enjoying the warmth and vitality that we get from sunlight. Sunlight is an integral part of a healthy lifestyle, just like getting enough sleep, exercising regularly and eating well.

Sunlight lifts our mood and makes us feel great. It gives us a boost of energy throughout the day and helps to produce Vitamin D3 throughout our body.

In fact, sunlight can have such a powerful effect on well-being, it's what has inspired us to design some of the most innovative tanning products in the world. From relaxing lay-down beds that will help you to build up a healthy tan, to CollaShower stand-ups that give you freedom to move and rejuvenate.

All while you recharge yourself and enjoy some precious personal time.

A woman with long, flowing blonde hair is shown in profile, looking upwards. Her hair is blowing in the wind, creating a dynamic, flowing effect. The background is a soft-focus field of tall grass and wildflowers, bathed in the warm, golden light of a sunset or sunrise. The sun is visible on the right side of the frame, creating a strong lens flare and illuminating the scene with a warm, golden glow. The overall mood is serene and natural.

Ultrasun International is a proudly independent company. We own our own production facilities in Germany and the Netherlands, as well as dedicated sales offices in the UK, USA and China.

OUR MISSION IS SIMPLE:
To provide luxurious wellness experiences
and maintain durable partnerships.

INNOVATION

We are a forward thinking business and have introduced many original ideas over our 40-year history. We were the first company to innovate with designs that challenged industry norms, including low/high combinations and upright solutions in professional units. We supply high-quality performance with an emphasis on responsible use and product safety.

We introduced the Ultrasun IQ Touch Control, the first complete digital two-way system that comes standard across our entire range. Version 2.0 enables you to personalize and manage your equipment at any time or any place, as you need it, when you need it.

Relax with aromatherapy and wellness sounds. Re-energize while dancing to your personal music in an air-cooled environment. Rejuvenate with vibration technology and water vapour. Use the Rainbow Manager to personalize the right light attraction for you.

When it comes to tanning, health and well-being, we've thought of everything. Whatever you require, we're sure to have an Ultrasun machine to suit you.

A LONG AND **SUCCESSFUL HISTORY**

Ultrasun International was founded by Willem Fabels in 1974 in a small factory in Enschede Holland. It was the start of a real success story.

As the oldest manufacturer of professional tanning equipment, Ultrasun has been a leading supplier for 40 years.

FIRST **STEP**

In 1975 the Ultrasun 1500 was the first facial system produced. These were exported worldwide and helped to build up our reputation for manufacturing solid and reliable equipment. Something that we are still known for to this day.

1975

By 1984 Ultrasun Germany was founded with a new production facility just over the Dutch/German border.

In 1986 the Ultrasun 20.000 Turbo broke all conventions by being the first tanning system with only high pressure lamps.

1987

In 1987 Sunfit Lighting joined the Ultrasun family.

In 1991 a tanning revolution took place with the introduction of the ScannerTanner 6000 by Ultrasun.

In 1994 Ultrasun USA was established.

In 1995, the first Ultrasun stand-up entered the tanning market: The SunShower 4200 x 160

In 1997 GardaSun became part of the Ultrasun family.

In 2002 to meet customers demand we moved to our new 5-storey HQ in Hengelo.

In 2003 Ultrasun Germany was built as a 82,000ft production factory in Salzbergen, Germany.

In 2008 we welcomed Original Dr. Muller to the Ultrasun Group and saw the introduction of our Collagenic range.

In 2014 we celebrate 40 years by introducing our new vision:

ULTRASUN: RECHARGE YOURSELF

2008

RECHARGE YOURSELF IN THE Q30

A deluxe tanning experience is guaranteed with the Q30, our ultimate recharge and relaxation system will make a real statement in your salon. From standard IQ Touch Control 2.0 to high-end performance, the Q30 is the most luxurious way to take care of your well-being.

Q30 Add the
Adjustable Electronic
Ballasts for longevity
and energy savings.

ULTIMATE RECHARGE **AND RELAX**

The Q30 is the gold standard in laydown tanning with stunning looks and an exceptionally high specification. IQ Touch Control 2.0 is an innovative two-way digital touch screen. You control every high-tech feature in your Q30.

Use Voice Guide to talk you through, use Music Pro to connect your phone to the high quality sound to match your mood.

Q22 Add the Airco and
never break a sweat.

RECHARGE YOURSELF IN THE Q22

The Q22 will look exceptionally stylish in any room. It has more than amazing appeal and it is packed with features sure to impress. With personal touch control 2.0 it brings state-of-the-art luxury to the personal wellness experience. You can pamper body and mind with sensory features such as an entertainment system, aromatherapy, water breezes and soothing wellness sounds.

DESIGNED FOR EXCELLENCE

The Q22 is a high performance machine that maximizes the tanning experience. It features a built-in air-conditioning system to make a session a pure pleasure. The Q22 can be upgraded to a complete wellness station by selecting different luxury options.

RECHARGE YOURSELF IN THE Q18

The Q18 has established quality and enduring appeal that never goes out of fashion. A combination of great looks and superb tanning proudly continued by our company. Re-energise body and mind, this is relaxation at its finest.

A TIMELESS CLASSIC

The Q18 is a timeless classic with proven ability. It comes standard with personal touch control and a wonderful range of features to enhance well being.

The body-shaped acrylic fits to your body for added comfort during tanning sessions. In addition to great looks and superb tanning it can be customized with a choice of features to provide a superb tanning experience.

Add the Voice Guide module with its spoken instructions in a wide range of languages on how to use the IQ Touch Control or include Wellness Sound to create a truly relaxing tanning session.

Q18

Add the Voice Guide with spoken instructions in your local language.

RECHARGE YOURSELF

Imagine...

The **first sun** of spring on your **skin**... **Diving** into a crystal clear lake after a long car trip... A cold shower on a **sizzling summer's day**... A **breeze** you feel, **lying** in the park, with your **eyes closed**... A **power nap** between two 3-hour meetings... A **song** that **lifts you up**... A **friend** that tells you to **come in**... **Relax**, and do absolutely nothing! **Refreshing... Re-energizing... Re-everything**... Imagine all of this... **lying down** and getting a **healthy tan** at the same time...

ULTRASUN... RECHARGE YOURSELF!

Q14 Add the Airco and cool out.

RECHARGE YOURSELF IN THE Q14

The Q14 is a new standard for wellness in its size. It has aerodynamic lines and a futuristic design with all luxurious features to maximize well-being without taking any more space than needed.

SPACIOUS WITH OUTSIZED LUXURY

The Q14 combines outsized luxury in a compact mid-level footprint. The separate ShoulderTanner provides extra UV light for the hard-to-reach shoulder area. A feature that can easily be switched on or off with the IQ Touch Control 2.0.

Re-fresh by enhancing the tanning experience with Aroma and Breeze systems, a fine mist of distilled water.

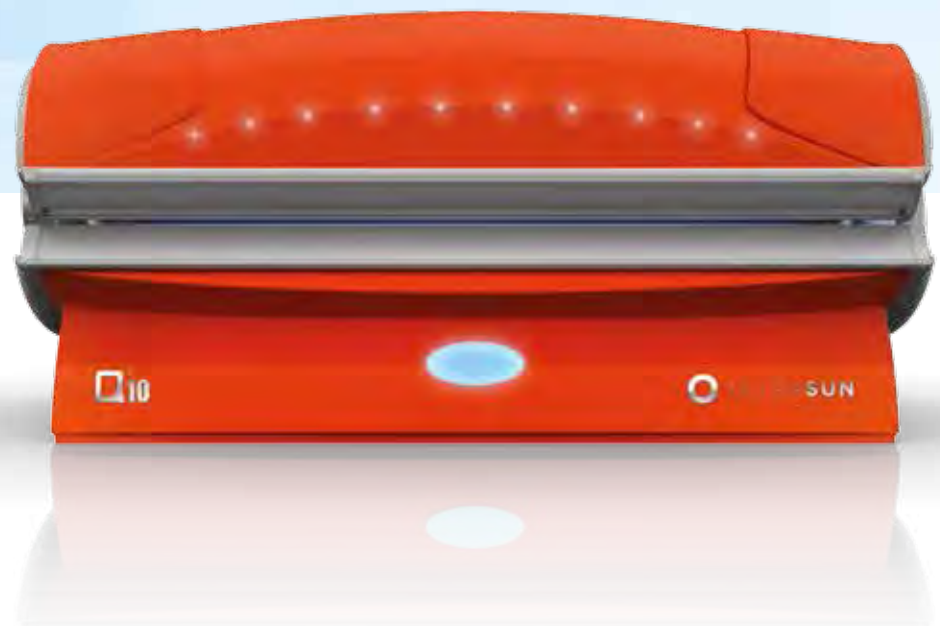

RECHARGE YOURSELF IN THE Q10

The Q10 is a classic model with a compact design and a genuinely spacious interior. It offers levels of comfort not seen elsewhere in her class.

It offers a superb experience with personal touch control, an entertainment system, shoulder tanning and a full body cooler.

Q10

Add the Music Pro for studio and personal music.

CLASSIC COMFORT

Efficient design with a wide body surface create a comfortable session. Combined with the excellent functionality makes the Q10 an impressive addition to any tanning studio.

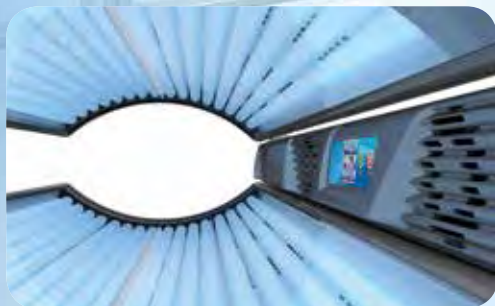

Turn around, play with your phone or snooze off, it's your space.

The BodyCooler system enables you to set the temperature for optimal comfort. Fresh air is blown out of the ventilators and warm air is extracted through a separate channel, creating the perfect conditions for a relaxing tan.

RECHARGE YOURSELF IN THE Q6

The Q6 is an essential addition in our Q-Series, an affordable machine that combines functionality and efficiency with amazing design. A comfortable starter model, its standard features are anything but basic with personal touch control, full body cooler and Rainbow Manager. An entry model not seen before in its range.

THE Q-SERIES **STARTER MODEL**

The Q6 is the perfect machine for compact tanning studios. It's also an ideal starter model for beauty and fitness salons, health centres, hairdressers and hotels.

It comes with an attractive range of features. The Music Pro entertainment system is enhanced further with an MP3 plug so you can tan to your tunes.

Q6

Add the Wireless Management System to plug-and-play.

RECHARGE YOURSELF

ULTRASUN, A LEADING SUPPLIER OF TANNING MACHINES FOR **MORE THAN 40 YEARS.**

PIONEERS IN **RESPONSIBLE TANNING SINCE 1974.**

DUTCH DESIGN. MADE IN GERMANY.

ULTRASUN RECHARGE YOURSELF

RECHARGE YOURSELF IN THE i9

Lavish space combined with the very latest technologies makes the i9 the most luxurious standing experience available.

Feel free to re-energize as you close your eyes and dance in the sun to your favourite music. Relax with refreshing aromatherapy and cool water breezes. The world's largest stand-up tanning system has it all.

i9

Add the professional audio and dance to your own tune.

THE AVANT-GARDE

The most spacious upright tanning experience in the world. A seamless tan can be achieved all over your body while you have ample room to feel free and relax. Plug in your phone or personalize the tunes to match your mood. Premium features include a built-in air-conditioning system guaranteeing a fresh and exhilarating recharge, as well as a healthy tan.

The i9 can be optimized with its own lockable changing cubicle.

i8

Add airco for a refreshingly cooled time.

RECHARGE YOURSELF IN THE i8

The i8 is an invigorating experience and the world's best-selling stand-up. This innovative design offers space and comfort for freedom of movement, body toning and a perfect all over tan. Designed to relax and re-energize with aromatherapy, water breezes and wellness sounds to enhance the i8 experience.

SPACE AND LUXURY

The i8 offers a superb tan and tone experience. The VibraPlate can be controlled effortlessly to set speed and intensity of vibration as you want. Opt for the Aroma and Breeze systems and transform this stand-up into a total wellness experience.

The i8 can be optimized with its own lockable changing cubicle.

i-SERIES CHANGING CUBICLE

Add a Changing Cubicle to create a safe and luxurious personal space for the i9 and i8 without the need of a separate room.

Inside you can lock the cubicle, find a clothes hook and vanity mirror; size and space can be used efficiently.

CHANGING
CUBICLE

Add the Wireless Management System, place it virtually anywhere and still guarantee privacy and security.

PRIVACY ANYWHERE

The i-Series changing cubicle offers privacy while you change and offer safe storage for your possessions. Multiple models can be set up anywhere in an open area of your salon, gym or studio, saving valuable space.

The Wireless Management System lets you control up to eight tanning systems from distance – all with just a few clicks on your PC. So you can make more efficient use of session times.

RECHARGE YOURSELF

LUXURIOUS WELLNESS EXPERIENCES THAT PAMPER BODY AND MIND.

RELAX AND BUILD UP A **HEALTHY TAN**.

AND FEEL THE **FREEDOM TO REJUVENATE**.

ULTRASUN RECHARGE YOURSELF

DR MULLER AND THE SCIENCE OF COLLAGEN

Collagen is a human protein made by cells in the dermis layer of our skin. Collagen and elastin support our skin and are responsible for its tightness, elasticity and suppleness. Research proves that during the aging process, especially after the age of 30 our skin's ability to produce the collagen protein slows down. This leads to the appearance of lines and fine wrinkles.

BUT THERE IS AN ANSWER.

Pure, red light stimulates our body's own natural processes to form new collagen and elastin. The best type of red light is found at a wavelength of 633 nanometres. It reaches the deepest layer of our skin, transporting energy to the cells to stimulate our body to produce collagen. This rejuvenation method is far more effective at increasing the production of collagen protein than using collagen creams. Because creams only reach the top layer of the skin and cannot get through to the lower dermis layer where collagen is produced.

COLLAGEN LIGHT SESSIONS CAN HAVE MANY BENEFITS FOR YOUR SKIN:

- Through collagen renewal, fine lines disappear and wrinkles become less visible
- Skin feels smoother
- Light absorbing molecules are activated to oxygenate and detoxify skin
- Your skin restores its youthful radiance and appearance for visible anti-aging
- You look and feel younger

COLLAGEN LIGHT SESSIONS ALSO HELP WITH ALL-ROUND HEALTH AND WELL-BEING:

- Exposure to light increases Serotonin – the happy hormone
- Serotonin helps to fight the winter blues and suppresses your appetite for weight loss
- Oxygenation and detoxification stimulates blood flow for better circulation
- The warmth of the collagen lamps relieve muscle pain and improve muscle flexibility

REFRESH YOURSELF IN THE OMEGA

The Omega Collagenic is an intense rejuvenation experience.

As the most comprehensive machine in the Original Dr. Muller by Ultrasun Collagenic range the Omega comes with your personal touch control, entertainment system controllable light show and turbine BodyCooler.

To get a totally refreshing recharge you can customize with air conditioning, aromatherapy/water breezes and Wellness Sounds.

An experience that will make your session even more enjoyable.

INDULGENT REJUVENATION

The Omega is designed for vitality and rejuvenation. The total body cooler ventilation system provides fresh air at the touch of a button. Add in the Airco option and it is even more of a pleasure. Breeze and Aroma features give you the option to enjoy a fine spritz of distilled water and refreshing fragrances for a totally indulgent rejuvenation session that will make you look and feel great.

OMEGA Add the refreshing aromatherapy and cool water breezes and enhance the wellness experience.

REFRESH YOURSELF IN THE INFINITY

The Infinity Collagenic is a compact and comfortable machine that is packed with a surprising array of features. Functionality and efficiency are combined with amazing design. With a built-in BodyCooler you can create the perfect climate for building up your collagen while enjoying your personal moment.

INFINITY Add the Wellness Sounds
for deeper relaxation.

COLORFUL AND COMPACT

The Infinity offers outstanding value in a compact footprint. The IQ Touch Control 2.0 allows you to control every possible feature.

With the Rainbow Manager you can create an interior and exterior light show or set the colour to suit your mood or style of the studio.

REFRESH YOURSELF IN THE COLLASHOWER

A gentle standing experience that helps you to re-energize and refresh your body as you smooth your skin. Free movement and an enjoyable session are guaranteed so you can relax to your favourite music while you recharge yourself.

For a more intense recharge, add in a VibraPlate, set the speed and intensity to suit your mood and enjoy the vibrations in a cooled atmosphere.

SPACE **AND** **LUXURY**

The CollaShower is the stand-up machine in the Original Dr. Muller by Ultrasun Collagenic product range.

Its spacious design gives you the freedom to move as you refresh and rejuvenate your skin.

A total wellness station; high quality personal music as your cares fade away and your body tones itself.

COLLASHOWER

The CollaShower can be optimized with its own lockable changing cubicle.

SUNFIT **FITS ALL!**

We are proud to confirm our place in the center of the tanning lamp market and to make Sunfit quality products available for all professional light applications. Our wide range of lamps, facials, starters, ballasts and accessories makes us the one-stop-shop for all your needs.

The Sunfit logo is displayed in white, bold, sans-serif capital letters. It is set against a background of a photograph of a road with trees, which is overlaid with a semi-transparent orange-to-red gradient. The logo is positioned in the upper right quadrant of the page.

SUNFIT **SYMBOL OF QUALITY**

Sunfit is a pioneer of high and low pressure ultraviolet lamps, and considers innovation a constant process. Several special Collagenic lamps for rejuvenation purposes have been added to the Sunfit product range.

Our efficient lamps are designed to meet the needs of today's demands. Ease of operation, durability and environmental friendly production are important standards for the development of the Sunfit lamps. Due to exceptional quality control, Sunfit assures a superior performance.

Operating in 50 countries worldwide, Sunfit is a partner for whom performance, high quality and reliability are the foundation for its success.
